

BRIGHTWELL – Suffolk’s destination interiors showroom

Nestled in a beautiful valley amongst rolling Suffolk farmland, the showroom not only offers privacy and parking but inspiration from its stunning room scenes and courtyard. Interior designers Holly and Julie Nicholls invite you to see for yourself.

The showroom is situated in a delightful renovated barn which is set out like a home, with living and dining spaces, stunning bedroom – as well as a bespoke kitchen, luxurious bathrooms, outdoor living area and courtyard. With over 2000 square metres of displays those who take a trip to this spacious and truly inspiring showcase from mother and daughter team Holly and Julie Nicholls will leave brimming full of ideas that they can incorporate into their own homes.

Holly and Julie believe their business was born from necessity. Julie explained “when designing our own homes, we found it impossible to source interiors locally. We feel if you’re spending a lot of money on something, you want to see it for yourself, not from a brochure. Everything on show here is for sale so you don’t always have the long lead times.”

Each season we hand pick an exquisite collection of sought after designer pieces

from across the world. We are the exclusive UK supplier of many brands we stock so you are guaranteed to see something unique. As an example we are the exclusive stockist for East Anglia of Kingcome Sofas which is such an honour.”

“Our style is classic but with a mix of eclectic and contemporary elements. We source fabrics from Chelsea Harbour Design Centre, and each year we go to Paris for the “Maison and Objet” show, along with many other European fairs to be at the cutting edge of design”

Holly added “visiting an interior designer can be daunting but we want to make it a pleasant experience. You can visit us for a coffee and browse the showroom at your leisure; we will listen to your requirements and discuss ideas and trends that are available within your budget. Once we have enough information together we will produce a

bespoke presentation for you. We offer a design service from start to finish or can simply help with those all important finishing touches”.

Holly has the technical know-how having studied at London’s prestigious Inchbald School of interior design, while Julie has many years of designing and making over properties locally – including her own stunning farmhouse family home and grounds in which the showroom sits. As a result the Brightwell Interiors contact book is packed not only with suppliers of beautiful objects to dress your home, but “tried and trusted” builders, garden designers and decorators who can ensure you also get the style and quality of finish you’ll love for years to come.
